Premium solutions at **Your** fingertips

TECH LIGHT

The beauty of extrusion captured in simple forms

Tech Light is the Company with Polish roots, operating on the lighting market since 2015. Founded by design enthusiasts with many years of experience in the field of extrusion. At Tech Light from the very beginning, we focus on the highest quality and innovative products. Our mission is to provide functional and innovative lighting solutions in LED technology.

We offer polycarbonate covers that are unique on the European market, providing double-sided protection against UV radiation. The characteristic fit click of all covers has been appreciated by our customers for years. Tech Light designers create several new lighting profile designs every year, taking into account customer needs and current market trends. Our products brought to life with LED light make an unique mood, influence emotions and create a exceptional atmosphere.

One solution – many applications, this is the philosophy that guides us when designing.

Tech Light management, headed by CEO Anna Szostek, focuses on stable and dynamic development of the Company. Expanding the range of products is a natural result of listening the market needs and responding to the expectations of our partners. We are pleased to cooperate and offer comprehensive technical support. Experienced Tech Light specialists will help to choose the right solution and create the perfect lighting arrangement.

We look forward to our cooperation!

P24-3

A modern dining room interior featuring a white rectangular table set for a meal with gold-rimmed plates, white napkins, and glassware. A vase of pink flowers sits in the center. The room has a minimalist design with a white ceiling featuring a recessed rectangular light fixture and a circular pendant light. The walls are a light beige color, and a large window on the left is framed by a white plaster-in profile. The floor is a light wood or laminate.

PROFILE CHARACTERISTICS

ALUMINIUM TESTED FOR:

TESTED ITEM	RESULT	MDL	LIMIT
Lead (Pb)	N.D.	2 mg/kg	1000mg/kg
Cadmium (Cd)	N.D.	2 mg/kg	1000mg/kg
Mercury (Hg)	N.D.	2 mg/kg	1000mg/kg
Hexavalent Chromium (Cr(VI))	N.D.	0.10 ug/cm2 (LOQ)	1000mg/kg

COMMENTS:

- MDL = METHOD DETECTION LIMIT (DETECTION LIMIT OF THE METHOD)
- N.D. = NOT DETECTED (NOT DETECTED)
- 1000 MG/KG = 0.1%

TOLERANCES

Length tolerance according to ISO 2768-9.
Products (profiles and covers) made with positive tolerance.
